

## Guest Speakers

### **David Beurle - FutureiQ - Keynote Speaker**

**David Beurle** is a world-renowned strategist, researcher and practitioner. He is CEO of Future iQ, a global foresight research and consulting firm, which he founded in 2003. Beurle helps clients "create future intelligence," by anticipating the rapidly converging forces affecting their lives and livelihoods. He guides them to proactively define and shape their future with the goal of economic and community resilience and vitality. Clients include countries, regions, cities, tourism destinations, corporations, industries, nonprofits, universities and the U.S. Department of Defense, among others. One of his special interest is the future of regions, which he views as ecosystems for tackling defining issues, such as workforce gaps in supply and demand—a critical area for innovation and prosperity.

### **Mark Krumenacher - GZA Environmental**

**Mark Krumenacher** is a Senior Principal and Senior Vice President of GZA GeoEnvironmental, Inc. based in Waukesha, Wisconsin. Mark has served as Principal, Project Manager and Project Hydrogeologist during the past 27 years with GZA on environmental, geologic, hydrogeologic and engineering projects throughout North America.

He is a Professional Geologist with licensure nationally and in several states and is a Certified Hazardous Materials Manager. He has managed and conducted geologic, hydrogeologic and, engineering studies, remedial investigations, environmental assessments, pre-acquisition environmental due diligence and hazardous waste management at various properties including surface and underground mines, large industrial, commercial and urban redevelopment projects, Federal Superfund sites and state-lead environmental projects.

### **David McCormack - Axley Attorneys**

Attorney Dave McCormack is a partner at Axley with more than 30 years of experience in business law. His practice focuses on employment law, commercial real estate, contract drafting and negotiation, finance and environmental law. Attorney McCormack recently served as in house senior counsel for BMO Harris Bank, N.A., where he negotiated and drafted lease and loan documentation for BMO Harris Equipment Finance Company and BMO's commercial lenders. Prior to his role with BMO, Dave owned a boutique business practice where he advised businesses in employment law, corporate formation and governance, environmental law, commercial real estate and finance.

### **Erik Lyngdal - Department of Transportation**

**Erik Lyngdal** is the concrete lab supervisor for WisDOT. Prior to his employment with WisDOT, Erik worked as a research engineer with the Modified Asphalt Research Center at the University of Wisconsin-Madison. Throughout his 8 years of research experience he has investigated topics related to asphalt binder, hot mix asphalt, recycling agents, recycled materials, and aggregates. In addition to his role as a researcher, he is directly involved with the improvement of statewide specifications and quality management for construction materials in WisDOT's Bureau of Technical Services. Erik graduated from the University of Wisconsin Madison with a bachelor's and master's degree in civil engineering.

### **Jimmy Georgantones / Rod Skindrud / Wayne Honea - Unified Screening & Crushing**

**Rod Skindrud**, Unified Customer Service Rep in the Midwest region. Before joining Unified, Rod spent 26 years at Wingra Stone & Redi-Mix Co., as General Manager, he was responsible for all crushing, washing and maintenance operation.

**Jim Georgantones** is North Central Sales Manager for Unified. In addition to his knowledge of screen media, Jim offers Unified regional expertise in manganese and wear parts.

**Wayne Honea** is Business Development/Sales Manager for Unified. Before joining Unified he spent 19 years in the sand/gravel, asphalt/concrete plant business, serving as a Plant Superintendent for one of the leading producers in the U.S.

## APW Annual Convention Agenda - Thursday, December 2, 2021

**8:00 AM - 8:30 AM - Registration, Continental Breakfast & Exhibit Hall Open**

**8:30 AM - 9:30 AM - Keynote Speaker - The World Ahead - A Decade Ahead of Turbulence and Triumph**

- Manufacturing is experiencing the fourth industrial revolution head on as it is driven by a series of shifts in consumer driven markets, technology, workforce and sustainability. Rapid globalization has developed complex global networks, allowing companies and people to design, source materials, manufacture and distribute products to consumers almost anywhere. *The World Ahead* examines current trends and describes the ways in which they are changing companies, processes and communities throughout the world.

**9:30 AM - 10:00 AM - Vendor Exhibits & Displays**

**10:00 AM - 11:00 AM - Defending the Foundation of a Stable Society** - As difficult as it is, mine permitting will never be easier than it is today. As the forces and on-line resources against the industry grow, there is no or very limited quarry industry counter to that opposition. Industry must lead the effort to educate law makers, the local politicians/decision makers that write the permits, other stakeholders such as neighbors and mine employees and their families. Right now, the only common education outside the mine comes when there is a permit application submitted and a mining company makes their pitch to individuals that may be clueless to the mining industry and/or have no place to turn but the Internet and the activists that sit at the table as committee and board members or otherwise fill the meeting rooms. There is a need to influence positive changes at the state and local level by spreading positive industry messages. Now is the time for national advocacy.

**11:00 AM - 11:30 AM - Legislative Update** - Hear from APW's lobby team about the 2021-2022 legislative session and what initiatives APW has been undertaking to benefit the aggregate industry in Wisconsin.

**11:30 AM - 12:00 PM - Vaccine Mandates - What this Means for your Business** - Hear from attorney, Dave McCormack about the latest on COVID vaccine mandates, enforcement through OSHA and what this means for your business.

**12:00 PM - 1:00 PM - Lunch with Guest - Secretary Craig Thompson - Wisconsin Department of Transportation**

**1:00 PM - 1:30 PM - APW Annual Meeting**

**1:30 PM - 2:00 PM - Vendor Exhibits & Displays**

**2:00 PM - 3:00 PM - Wisconsin DOT** - Erik Lyngdal, concrete lab supervisor for WisDOT will present on the changes to the Quality Management Program (QMP) for 2022.

**3:00 PM - 4:00 PM - Screen Media Installation Matters!** - Hear from Unified representatives about proper tensioning, correct installation and ways to eliminate issues that can lead to accelerated wear, panels broken too soon and inefficient screening.

Unified knows that no two pits are alike, no two quarries are the same. A cookie-cutter approach to screening will not work. Looking to introduce a new product? Expecting a spec change? Trying to increase first-pass yield? Hear from Unified reps on solutions – from woven wire to urethane or rubber screen media.

**4:00 PM - 6:00 PM - Cocktail Reception in Exhibit Hall**
